

A close-up photograph of an orange urethane modular screen panel. The panel is composed of a grid of square openings. A small, cylindrical protrusion is visible on the left side of the panel. The panel is set against a dark grey background.

## DESIGNED AND BUILT TO **MATCH YOUR UNIQUE APPLICATION**

Durex Products, Inc., has expanded production facilities to once again offer a complete line of modular urethane screen panels and accessories.

### Why Urethane?

- **Long Wear Life:** Polyurethane is ideal for highly abrasive and dry or wet applications, providing much longer wear life than traditional wire screen media.
- **Exceptional Performance:** Urethane offers excellent elasticity and impact absorption for increased screening efficiency.
- **Low Cost Per Ton:** Long life plus great productivity leads to significant reduction in total operating costs.

### Why Durex Products?

Specialized polymer formulas, combined with our experience in precision, open-cast manufacturing processes, result in urethane screening products that provide unmatched quality and performance. Our urethane screen media delivers outstanding efficiency and wear life in even the harshest conditions.

# URETHANE MODULAR SCREEN PANELS FOR WET AND DRY APPLICATIONS

We offer a wide range of urethane screening products for stone, sand and gravel, dewatering, mining, and more.

## MODULAR CLASSIC PANELS\*

Min. Opening	Max. Opening	Thicknesses	Panel Size
.009" x .551" slot	3.000" square	1.50", 2.00"	11.625" and 12" wide, up to 4' long

## MODULAR 2K PANELS\*

Min. Opening	Max. Opening	Thicknesses	Panel Size
.012" x .737" slot	3.000" square	30mm, 40mm, 50mm	12" x 12", 12" x 24"

## MODULAR KNOCK-IN BAR PANELS\*

Min. Opening	Max. Opening	Thicknesses	Panel Size
.009" x .551" slot	3.000" square	1.50", 2.00"	11.813" wide, up to 4' long

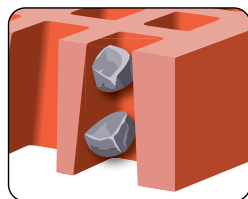

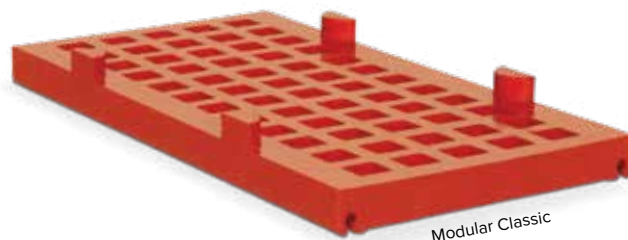

## MODULAR P-PIN PANELS\*

Min. Opening	Max. Opening	Thicknesses	Panel Size
.009" x .551" slot	3.000" square	40mm, 50mm	12" x 12", 12" x 24"

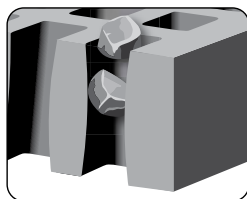

## MODULAR P-PIN MAXI PANELS\*

Min. Opening	Max. Opening	Thicknesses	Panel Size
.012" x .473"	2.688" square	30mm, 40mm, 50mm	12" x 12", 12" x 24"

\* Slot direction is available as parallel or right-angle to material flow; some variations are not available on every size.

Tapered design

Other brands tend to plug

## TAPERED DESIGN

Durex modular urethane panels feature tapered openings that are wider at the bottom. This advanced design reduces plugging and increases throughput.

## Ask about all of the high-quality urethane products offered by Durex Products, Inc.

- Magnetic and bolt-on urethane liners for cross supports, shafts, feed and discharge chutes, and sides liners
- Steel and urethane stringers (u-channel, buttons, knock-in bar)
- Urethane dams and diverters
- Modular wire cloth panels for numerous systems
- Spray piping, nozzles, v-jet sprays, and urethane beavertail deflectors
- Bucker-bar channel — rubber and urethane

We offer many types of panels and fastening systems, as well as engineering and installation assistance. Ask your dealer representative for details.
