

A close-up, angled view of a red urethane modular screen panel. The panel features a grid of square openings. A locking mechanism is visible on the left side, consisting of a red cylindrical component that fits into a slot on the panel's edge. The panel is shown in a perspective view, highlighting its thickness and the interlocking design.

IN-SPEC AND UP TO SPEED.

DESIGNED AND BUILT TO MATCH YOUR UNIQUE APPLICATION

Durex Products, Inc., has expanded production facilities to once again offer a complete line of modular urethane screen panels and accessories. Our urethane screens provide long wear life, superior performance, low cost per ton, and reduced noise. We offer a number of panel fastening options, and we can fully design and build urethane screens to match your unique application.

WHY URETHANE?

- **Long Wear Life:** Polyurethane is ideal for highly abrasive and dry or wet applications, providing much longer wear life than traditional wire screen media.
- **Exceptional Performance:** Urethane offers excellent elasticity and impact absorption for increased screening efficiency.
- **Low Cost Per Ton:** Long life plus great productivity leads to significant reduction in total operating costs.

WHY DUREX PRODUCTS?

Specialized polymer formulas, combined with our experience in precision, open-cast manufacturing processes, result in urethane screening products that provide unmatched quality and performance. Our urethane screen media delivers outstanding efficiency and wear life in even the harshest conditions.
